January 2011

Liebherr LTM1400 - 7.1

After spending the last couple of months in projects in Wyoming and Arizona, we are happy to announce that our **new Liebherr LTM 1400-7.1 500 ton all terrain crane** has made its way back to Utah. This crane is the *second* 500 ton all terrain crane in Mountain Crane's fleet and is available for upcoming work.

Inside this Issue:

- Liebherr LTM1400 - 7.1
- 2010 in Review
- Annual Safety Training
- ConEXPO 2011
- Employee Spotlight
- Previous Winners
- Power Gen

This crane was featured in our September newsletter, which can be viewed here: <http://mountaincrane.com/pdfs/mtncranenewsletter-092010.pdf>

Load charts for this crane can be found on our website: <http://mountaincrane.com/fleet.html>

October: [Mountain View Corridor](#)

May: [John Carter of Mars Film Project](#)

November: [Pumpkin Shoot](#)

June: [Wind Turbine Erection](#)

December: [Tower Crane Disassembly](#)

Annual Safety Training

Mountain Crane Service employees went through several consecutive sessions of safety training over the holiday break. Mountain Crane management likes to take advantage of the down time during these winter months to renew certifications and gear up for a new year. Safety is a high priority at Mountain Crane and we had over 90% attendance despite conflicts with holiday plans.

Employees are now certified for 2011 through the Wyoming/Montana Safety Council, Utah Safety Council, and MSHA. They also received a refresher course in first aid and CPR. We had several excellent instructors visit Mountain Crane Service facilities over the course of this training. If you would like additional information regarding these instructors feel free to contact Gary Rehmer at gary@mountaincrane.com.

Employees will soon be going through a 2 day course for Rigger and Signalperson certification in accordance with new OSHA regulations.

ConEXPO 2011

Mountain Crane Service is excited to attend the ConEXPO 2011. We look forward to seeing many of you there. Please let us know what booth you are displaying at and what days you will be in attendance. Mountain Crane Service will have representatives at the event all week.

Employee Spotlight

JR Ames has been with the company for almost 4 years. He is a **Factory Certified Mechanic** as well as a valuable lead for the maintenance team.

JR and his wife have a little boy named Preston who is 18 months old.

In his free time, JR enjoys hunting all sorts of animals such as ducks, elk, and deer. He also likes ice fishing, guns, and camping.

Jazz Ticket Winners

Congratulations to **Steve Bennett** of Jacobsen Construction and **Devin Bunnell** of W.W. Clyde for winning 2 suite tickets to an upcoming Jazz game.

Josh and/or Skyler will deliver your prizes shortly. Additional winners will be announced in our February newsletter!

Utah's Largest Crane Fleet

Load charts for each of our cranes are available online at www.mountaincrane.com/fleet.

Mountain Crane Service provides a variety of services across the Intermountain West including plant shutdowns, steel, pre-cast panels, heating and cooling units, transformers, pools and hot tubs, demolition, windmills, and bridge girders, to name a few.

Heavy Haul service is also available.

Mountain Crane Service employees receive continual training through Operating Engineers Local 3 and have their CCO Certification.

Check out our website at www.mountaincrane.com for more information.

PowerGen

Mountain Crane Service recently attended 2010 PowerGen show in Orlando, Florida. We were able to meet with several customers and touch base with industry contacts. We are excited for the upcoming year and look forward to many more industry events.

“PowerGen International is the industry leader in providing comprehensive coverage of trends, technologies and issues facing the generation sector. As the need to operate more efficiently and cost-effectively becomes increasingly important, no other event bridges challenges with solutions like PowerGen International.

More than 1,200 companies from all sectors of the industry exhibit each year and more than 19,000 attendees come together at PowerGen International for a horizontal look at the industry with key emphasis on new solutions and innovations for the future.”
