August 2010

Sorenson Recreation Center

Under the direction of Layton Construction, our P&H 9150 lattice boom conventional truck crane was utilized to hang steel on the J.L. Sorenson Recreation Center in Herriman. This 110,000 square ft. recreation center is the beginning of the Herriman Towne Center Development and is scheduled for a December 2010 completion.

Inside this Issue:

- Sorenson Recreation Center
- BYU Date Night
- Golf, Golf & More Golf
- Employee Spotlight
- CCO Crane Operators

At one point we had three cranes on the project that if you looked closely enough, you could see in the distance from outside our office window.

BYU Date Night

Mountain Crane has several die-hard BYU fans on staff. Coach Bronco Mendenhall hosted a BYU Date Night where couples could meet the coaching team, tour the facilities, and experience some drills on the field at LaVell Edwards Stadium.

Unfortunately, some of the festivities were called off on account of rain, but our group had a great time hanging out where it was dry. Thanks to all of our customers who joined us for a fun night out!

Golf, Golf & More Golf

Mountain Crane Service was privileged to participate in three golf tournaments this month. Our team traveled far and wide to attend these events. We would like to thank the organizers of the NAPM and Sinclair golf tournaments for allowing us to set up our booth at their facilities.

Marie Neff, Office Manager for Mountain Crane, was asked to assist in the planning of the 2010 Chevron Contractor Golf Tournament. We had a great turnout, excellent sponsors, and a fun group of people to make the event a huge success.

Employee Spotlight

In his free time, Skyler enjoys hunting, hunting, and more hunting. He also enjoys baseball (especially the San Francisco Giants), horseback riding, and golf. He has been married for 9 years, has a beautiful blonde, blue-eyed daughter named Julia, and will have a new baby girl to his family this winter.

Skyler Mundy has been with the Mountain Crane team for a little over 18 months. His previous work experience includes working with Okland Construction on the City Creek project and Owner of Summit Building, a residential construction subcontractor. He served as a volunteer representative for the LDS Church in Brazil and speaks fluent Portuguese.

Utah's Largest Crane Fleet

Load charts for each of our cranes are available online at www.mountaincrane.com/fleet.

Mountain Crane Service provides a variety of services across the Intermountain West including plant shutdowns, steel, pre-cast panels, heating and cooling units, transformers, pools and hot tubs, demolition, windmills, and bridge girders, to name a few.

Heavy Haul service is also available.

Mountain Crane Service employees receive continual training through Operating Engineers Local 3 and have their CCO Certification.

Check out our website at www.mountaincrane.com for more information.

CCO Crane Operators

All Mountain Crane Service operators are CCO Certified. Mountain Crane Service employs only the best of operators that we have full confidence in.

The NCCCO is an independent, non-profit organization that sets the standards for knowledge and skills required for the safe operation of cranes. Crane operator certification results in fewer injuries and fatalities, a better work environment for us all.
