September 2010

Liebherr LTM1400

Mountain Crane Service is excited to announce the purchase of its **second** 500 ton all terrain crane. This Liebherr LTM1400 7.1 is equipped with 197 ft. Main Boom, 275 ft. Luffer and Super Lift Attachment. Load charts available at www.mountaincrane.com.

Since the crane's arrival in late July, it has been busy working on projects in Wyoming and Arizona. We are excited to have this new addition to our fleet. Operated by Roy Justice, we are confident that this crane will be an excellent resource for any large job.

Inside this Issue:

- Liebherr LTM1400
- Excellence in Safety Training
- Big Shot Ranch
- Employee Spotlight
- Jacks & Skates

Crane featured at Coronado Generating Station in St. John's, Arizona.

Excellence in Safety Training

Mountain Crane Service has been selected by the Wyoming-Montana Safety Council (a chapter of the National Safety Council) to be recognized for **Excellence in Safety Training**. The council reviewed 17 submittals, including our safety manual, training schedule, policies and procedures, employee responsibilities, equipment inspections, incident reporting forms, and safety incentive program.

This award reflects Mountain Crane's commitment to safety and efforts to educate our employees in safe practices.

Mountain Crane will be recognized with other Wyoming-Montana contractors at an awards dinner in Casper, WY on Tuesday, October 12.

Big Shot Ranch

The Mountain Crane Service team invited a group of customers to spend a day at the gun club earlier this month. Thanks to the nice weather we have enjoyed in recent weeks, the group was able to enjoy some great time outdoors and a BBQ lunch provided by the staff at Big Shot Ranch.

It's not always easy to get out of the office, but we hope to host another event like this before the weather takes a turn for the worse.

Employee Spotlight

Travis Horton has been with Mountain Crane Service from the beginning. He began working with cranes before graduating from high school and has over 18 years' experience on projects in Utah, Nevada, California, and Arizona. He is a CCO Certified Crane Operator and knows how to prepare for each lift safely and efficiently.

Travis currently serves as **Operations Manager** where he assigns crews to particular projects and prepares rigging for upcoming lifts.

In his free time, Travis enjoys spending time out on the lake, snowboarding, hunting, and many other outdoor activities. His son Wyatt participates in many of these activities with him.

Jacks & Skates

Mountain Crane Service is now equipped to provide you with jacks and skates for upcoming projects. We have recently completed a set of jobs and look forward to other opportunities to better serve our customers.

Utah's Largest Crane Fleet

Load charts for each of our cranes are available online at www.mountaincrane.com/fleet.

Mountain Crane Service provides a variety of services across the Intermountain West including plant shutdowns, steel, pre-cast panels, heating and cooling units, transformers, pools and hot tubs, demolition, windmills, and bridge girders, to name a few.

Heavy Haul service is also available.

Mountain Crane Service employees receive continual training through Operating Engineers Local 3 and have their CCO Certification.

Check out our website at www.mountaincrane.com for more information.
